FRAMELESS GLASS PIVOT DOOR HARDWARE

E08R00

Round-K case must be placed in the floor with a 76mm dia. hole

- Check the correct hole position before inserting the case
- Use structural glue (chemical type) and lay the case so that it lays the upper tooth on the final floors height
- Previously protect the holes with paper tape
- Keep the case level during the application
- Lay the closer and point the M6 screws (cylindrical head)
- Mount the door
- Adjust the door by turning the screws
- Insert the cover
