Istruzioni

- Il bicchiere Round-k va inserito a pavimento con il foro \varnothing 76 mm
- Guardare bene la giusta posizione dei fori prima di posare il bicchiere
 - Usare colla strutturale tipo chimico ed adagiare il pezzo affinché posi il dentino superficiale sopra la quota pavimento finito
 - Proteggere i fori precedentemente con nastro carta
 - Nella posa mantenere il bicchiere in bolla
 - Adagiare la pompa e puntare le viti M6 testa cilindrica
 - Montare la porta
 - Regolare la porta stringendo le viti
 - Inserire il coperchio

Instructions:

- Round-K case must be put in the floor with 76 mm dia. hole
- Please check the right position of the holes before inserting the case
 - Use structural glue (chemical type) and lay the piece so that it lays the upper tooth on the final floor's height
 - Previously protect the holes with paper tape
 - Keep the case adjusted with level during the application
 - Lay the closer and point the M6 screws (cylindrical head)
 - Mount the door
 - Adjust the door screwing the screws
 - Insert the cover
