Series 7500™ Frameless Slider

PERIMETER FRAMED SLIDING SHOWER SCREEN SYSTEM WITH FRAMELESS DOORS

Series 7500™ Frameless Slider features a slimline shower screen system with frameless sliding doors.

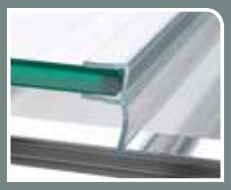
Exceptional Value
Indulge your imagination and create an absolute premium bathroom design at a surprisingly affordable price.

Effective Space Utilisation
The **Series 7500™ Frameless Slider** design facilitates the installation of a full size shower enclosure even when bathroom space is at a premium. Proximity of vanities, toilets and baths restricting access to the shower enclosure is no longer an issue.

Design Flexibility
Series 7500™ Frameless Slider can be designed for installation into a variety of bathroom configurations. Ask your distributor for advice on a design to suit your requirements.

Components
Component and design features combine to provide convenience and colour co-ordination.

- Door Stop
- Water Seal
- Frameless Corner Entry D Handle
- Anti-bacterial clear (i.e. frost) and colour matched glazing vinyl



Low Maintenance
Cleverly designed sill and quick release bottom rollers featured in all **Series 7500™ Frameless Slider** shower screens are designed to minimise soap accumulation, and provide easy access for cleaning.

Magnetic Closure
Full length magnetic door seals, provide a positive close on point-of-entry which eliminates door roll back and creates impressive water splash resistance improving bathroom safety and function.

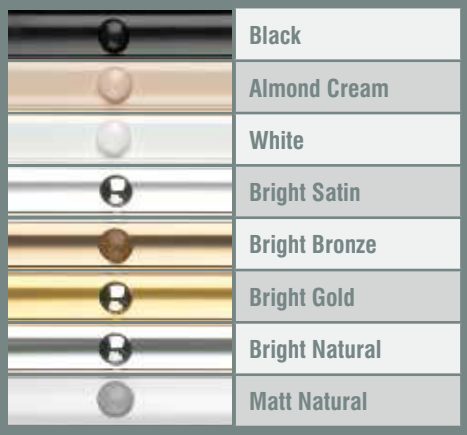
Safety
Series 7500™ Frameless Slider Shower Screen Systems are glazed to comply with the requirements of Australian Standards AS2208 and AS1288.

Glass Specification
Designed specifically for use with 6mm toughened glass.

Premium Operation
The smooth sliding action of the frameless doors are enhanced by dual roller carriages featuring stainless steel bearings, ensuring premium operation at all times.

Water Resistance
Series 7500™ Frameless Slider utilises a fixed panel and overlapping door configuration. Combined with magnetic door seals or water and bulb seals greatly improves water splash resistance. The purpose designed sill directs water run-off back into the shower recess ensuring your bathroom remains dry and safe.

Colour Selection



Special colours available upon request.

Obligation-free measure & quote Please call for an obligation-free measure and quote, and also ask for details on matching: The **Mirox Fineline™** and Mirror Framing Systems.
