Note: Two vertical edges must be flat polished.				
RETURN PANEL	Height	1	RH-38	
	Width	1	RW-43	
Note: One vertical edge to be flat polished.				

SPECIAL NOTES

- *For **SQFPCS: Square Frameless Pivot Clamp System** glass cut out option, see Glass Preparation and Dimension Guide.
 - Include 8mm hole on door glass for handle.
 - Glass deductions allow for one fixed panel (e.g. FPWB) to overlap the return panel by 6mm creating the need for a silicone butt joint.
- Note:** *If **SEBWS: Bulb Water Seals** are required, amend **FPWA** and **FPWB** deduction from -22 to -26.
- Use of **SEBWS: Bulb Water Seal** on fixed panels, either side of door, is highly recommended for optimal water resistance.
 - Assumes use of 6mm toughened glass.
